Beauty and functionality. Elegance and professionalism.

New Maia XC Top. Technology in great shape.

When cutting-edge technology meets sophisticated design, the result is an invaluable technological jewel. The new Maia XC Top astounds for its multitude of features and its aesthetic sophistication. It is a truly all-in-one system, indispensable for effectively managing your business with the sophisticated style of a splendid jewel. Discover the incredible Maia XC Top in its range of exclusive versions.

maia xc top. The features that make the difference.

1. Maia XC Top is able to capture fluid moving images at 30 frames per second. The 7" 16/9 display guarantees perfect vision: 350 cd luminosity, a wide visual angle and 800x480 resolution.
2. Exclusively designed by renowned Italian architect Paolo Villa, it is available in Shining Black, and in Dark Anthracite with soft-touch effect.
3. Maia XC Top is integrated with VoIP-PBX exchanges and, thanks to the Wi-Fi interface, can access every feature without the need to connect cables.
4. Maia XC Top offers much more than a standard video-phone: use it for IP Telephony, to navigate in Internet, to manage your e-mails, to chat using Instant Messaging programmes, or to create a personal photo gallery.

New **maia xc top.**
A jewel in the crown of
communications technology.

maia xc top.

The compact, all-in-one solution.

A jewel of technology, **Maia XC Top** would certainly grace anyone's idea of the dream business desk; plus it's also perfect for home environments that want more than just a standard phone.

Underneath its stylish exterior lies a myriad of must-have features. First and foremost the most valuable feature: **professional video communication**. With Maia XC Top you can easily participate in videoconferences with people all over the world, with guaranteed professional communication and the added benefit of significant savings both in time and financial terms.

But **Maia XC Top** offers much more: use it for **IP Telephony**, to **navigate in Internet**, to **manage your e-mails**, to chat using **Instant Messaging** programmes, or to create a personal **photo gallery**. Discover just how easy it is with Maia XC Top.

Quality you can see.

To guarantee the highest quality professional video communication, the **integrated camera** is able to capture **fluid moving images at 30 frames per second**, and all images received are viewed **on a 7" 16/9 screen**. The display guarantees perfect vision of any image - still or moving - thanks to characteristics of absolute excellence: **350 cd luminosity**, a **wide visual angle** and **800x480 resolution**, making even the smallest fonts easy to read. Of course the audio is also of the **highest quality**, a real plus point when compared with standard video-telephones, even in hands-free mode.

All features can be managed through the simple and intuitive graphic interface, also available **in touch-screen mode**. In addition, set up to **10 soft keys** in order to have your favourite options at the touch of a button. Aren't you just dying to try it out?

Connectivity: the secret of its success.

If Maia XC Top provides you with a powerful professional business tool, the credit lies in the level of connectivity and integration reached by **the Aethra R&D department**.

An all-in-one solution that supports the professional video communication protocols **IP-H.323** and **IP-SIP** and the telephone standards for **PSTN networks**, Maia XC Top is integrated with **VoIP-PBX** exchanges and, thanks to the **Wi-Fi interface**, can access every feature without the need to connect cables. Completing the offer is a **USB port**, which allows convenient uploading of images as well as the possibility to connect to an external monitor.

An ideal solution for optimizing multi-point videoconferences.

The communications jewel "made in Italy".

Renowned Italian architect, Paolo Villa, embellishes with elegance and style a highly innovative project, the natural expression of Aethra's industry know-how. That's because we are convinced of the importance of aesthetic quality in professional video communications, by providing the perfect way to celebrate your own personal style.

Choosing an Aethra solution means more than just significant savings in time, money and CO₂: **it's an evolution of the mind**, and approach to work. The system becomes a symbol of change, reflecting a style and singular personality that only you can define. Maia XC Top is the unique, eye-catching and prestigious solution, which offers a complete professional video communication system, as well as much more. Available in elegant **Shining Black** or in the exclusive versions **Dark Anthracite**, with soft touch effect, **Woodland Green** and **Smoky Blue***.
