

Zultys Announces Media Gateway Portfolio
Solution Adds SIP Trunks to Its PBX and
Enables Analog Devices (September 21, 2009)

SUNNYVALE, CA -- (Marketwire) -- 09/21/09 --
Zultys Inc. announces a Media Gateway family of products. These gateways continue Zultys' commitment to removing barriers to UC deployment and enhancing its product line.

"Zultys has been committed to SIP as the voice communication standard since the conception of the company. Our Media Gateway portfolio is being added at the request of many customers and resellers and offers the flexibility to meet the needs of the SMB marketplace," said Steve Rothenberg, Zultys CEO.

The Zultys' media gateway family delivers the form, fit and function flexibility that meets customers' needs. From a 4 port FX/S or FX/O offer to a 48 port FXS, these gateways can be deployed in small or medium size local or remote locations with SIP connections back to the larger home office. The MG VoIP gateways support outgoing and incoming calls to PSTN, local extension to extension dialing as well as transfer and hold capability. We are now also able to add and enable inexpensive standard analog phones to our MX Line. This enables the inexpensive deployments of devices in places like healthcare, education, hospitality and anywhere where a standard phone is needed, as an extension of the PBX.

Zultys MG Gateways configurations: MG4/S: SIP Gateway with 4 circuits of subscriber side interface MG8/S: SIP Gateway with 8 circuits of subscriber side interface MG4/O: SIP Gateway with 4 circuits of exchange side interface MG8/O: SIP Gateway with 8 circuits of exchange side interface MG8/SO: SIP Gateway with 4 circuits of subscriber side interface and 4 circuits of exchange side interface MG24/S: High Density SIP Gateway with 24 circuits of subscriber side interface MG48/S: High Density SIP Gateway with 48 circuits of subscriber side interface

About Zultys

Based on open standards, Zultys Inc., a Silicon Valley company founded in 2001, manufactures feature-rich VoIP Business Phone Systems that easily scale to thousands of users. Zultys makes your business needs our priority. Our solution supports Mac, Windows 32 or 64 Bit or Linux users and integrates features such as soft-phone, Find me-Follow me, Presence, Secure Chat, Tele-worker support, Inbound Contact Center, IVR, ACD, Call Recording, Fax Origination/Termination, Cell Phone Twinning and much more. Zultys delivers on the promise of Unified Communication from open interfaces such as SIP to rich applications and networking. Not only is our solution cost effective, it also provides the highest energy efficiency with its compact single server all-in-one design. Zultys' distributed architecture also helps companies maintain high availability, while being simple to install, manage and scale.
